

THE DUSK NETWORK

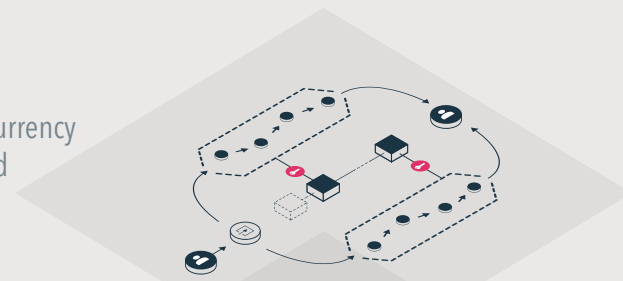

A NEW DAWN FOR DECENTRALIZED PRIVACY

The Dusk Network is a **privacy-oriented** decentralized infrastructure that enables secure transactions as well as **fast** bi-directional transmission of data among equipotent peers, paid for by a **fungible** cryptocurrency: DUSK.

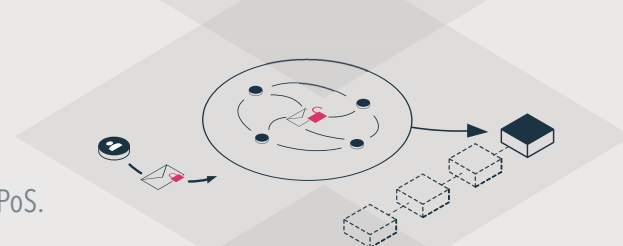

SECURE TUNNEL SWITCHING

A protocol allowing cryptocurrency payments for time-unbound and fast data transmission.

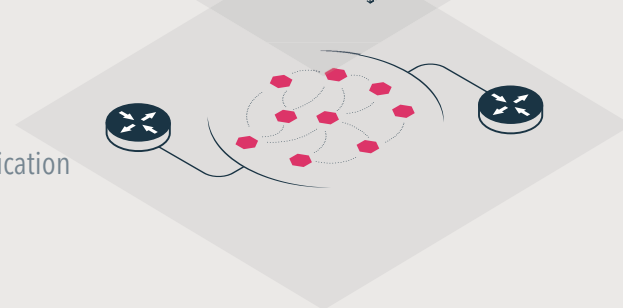

SEGREGATED BYZANTINE AGREEMENT

A novel privacy-oriented consensus algorithm vastly more efficient than PoW or PoS.

ANONYMOUS NETWORK LAYER

A gossip-oriented communication tier inspired by I2P.

WHAT IS IT FOR

Secure data transmission, low-latency streaming and confidentiality enable privacy and decentralization of massive global use cases

MEDIA ON-DEMAND SERVICES

VIDEO AND AUDIO CONFERENCING

CONFIDENTIAL FILE TRANSFER

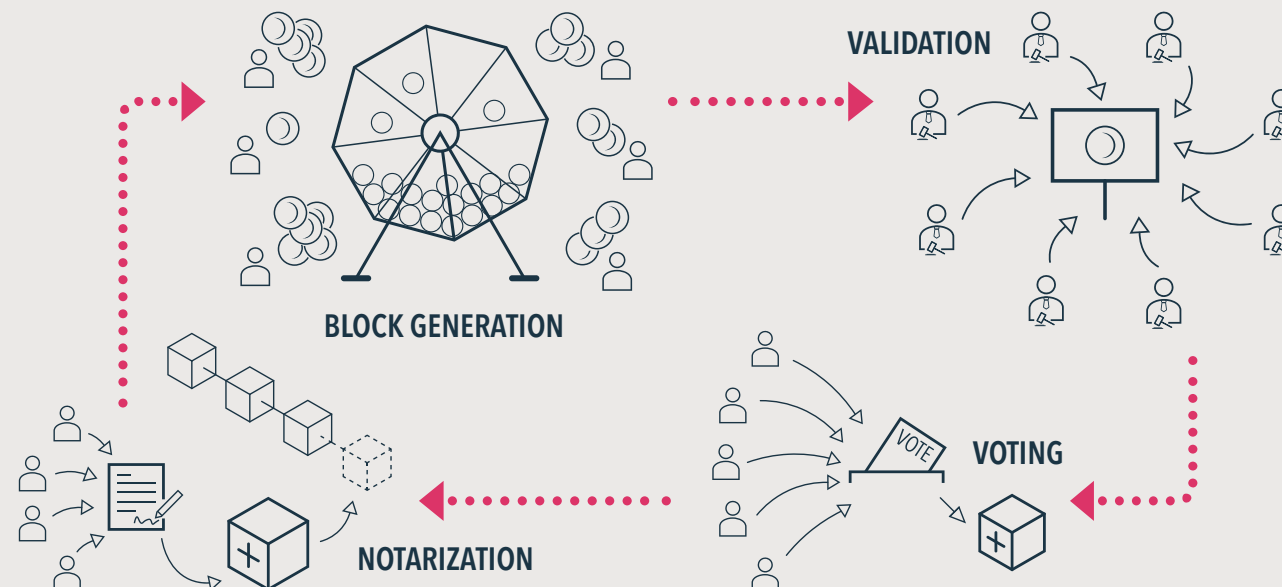

COMPLIANT ISSUANCE OF SECURITY TOKENS

THE DUSK TEAM

- Emanuele Francioni | Project & Tech Lead
- Fulvio Venturelli | Lead Researcher
- Jelle Pol | Business & Product Dev
- Kieran Hall | UX & Front-End Dev
- Pascal Putman | OSS Project Management
- Jeske Eenink | PR & Communication
- Mels Dees | Partnerships & Business Dev
- And more...

THE DUSK BLOCKCHAIN

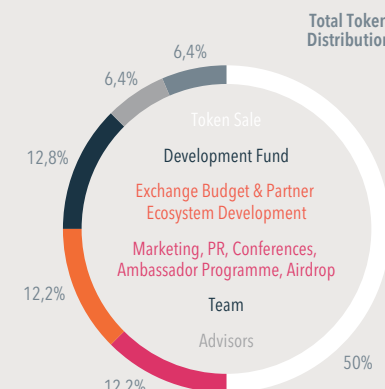

The DUSK Network uses the novel **Segregated Byzantine Agreement** protocol where the network demanding tasks of block verification, voting and notarisation are carried out by non-transactional nodes called **Provisioners** and kept separated (i.e. segregated) from block generation. The latter is accomplished by normal transactional nodes competing in a non-interactive cryptographic lottery sortition. This combines the resilience of player replaceability with the privacy of **zero knowledge** range proof and stealth transactions.

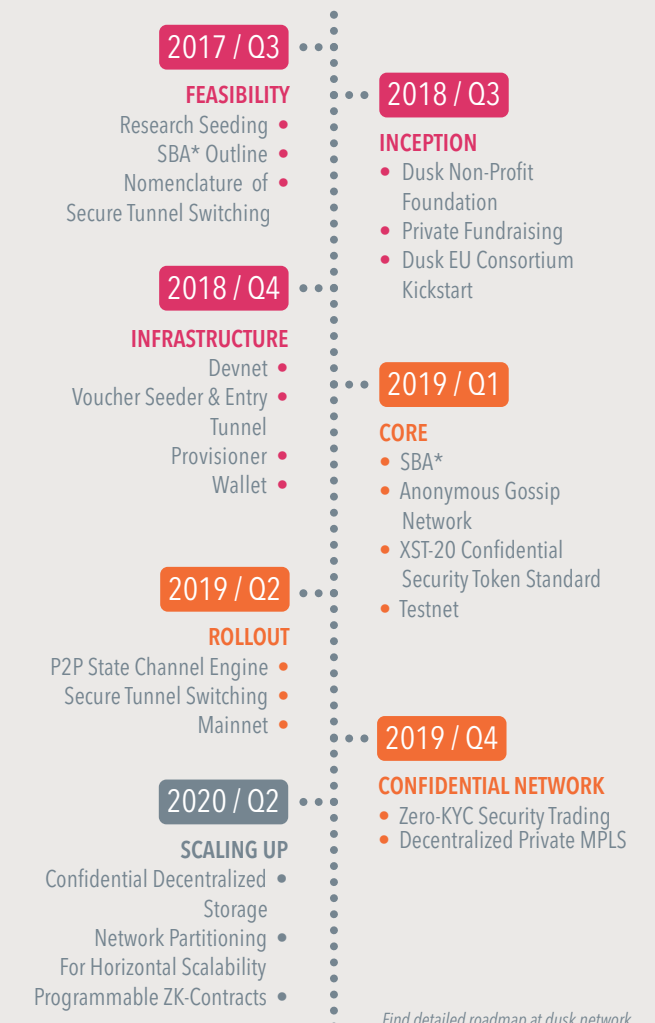

METRICS

7.8M USD for 50%

| Investor | Investing Advisors | Strategic Investors | Private Presale |
|--------------|---------------------|---------------------|--------------------|
| Timing | August | August/September | August/September |
| Bonus | 30% (~0.029\$/Dusk) | 20% (~0.031\$/Dusk) | 0% (~0.038\$/Dusk) |
| Total Tokens | 250,000,000 (50%) | | |
| Funds Raised | 7.8M USD | | |
